## **UPDATE: N.D. Highway 1806 north of Hazen is blocked**

The North Dakota Department of Transportation (NDDOT) has announced that **N.D. Highway 1806** north of Hazen is blocked from the junction of N.D. Highway 200 west five miles. **N.D. Highway 200A** north of Washburn to the junction of N.D. Highway 200 remains blocked due to snow drifts on the roadway. High winds continue to cause blowing and drifting snow.

A **Travel Alert** remains in effect for the central and western regions of North Dakota due to blowing and drifting snow. Drifting snow is sticking on roadways causing slippery black ice conditions, which is causing hazardous driving conditions. The Travel Alert includes all highways in the western and central regions. Motorists should be alert to changing road conditions, especially near structures or sheltered areas.

Please be advised that information on 511 is updated daily from 5 a.m. until 9 p.m. CST. The 511 road report is based upon the information available to the NDDOT at the time of preparation and is provided solely as a public service. Conditions may vary from those reported. Motorists are cautioned to be alert to changing conditions. All travelers are encouraged to monitor road conditions, reduce traffic speeds as weather conditions occur and use caution while traveling. For road information, call 511 from any type of phone or go to the website: [www.511.nd.gov](http://www.511.nd.gov) for road and weather conditions.

**No Travel Advisories - are issued when conditions warrant no travel but not a road closure.** No Travel Advisories have the potential to change to a Road Closure if conditions deteriorate. No Travel Advisories are issued for public safety to encourage motorists not to venture out onto the roads. Motorists are urged to take No Travel Advisories seriously. Conditions change often during a storm event and motorists may become stranded if they are caught between destinations.

**Travel Alerts - are issued to alert motorists that areas of challenging winter driving conditions may be encountered.** Conditions are such that motorists can still travel; however, they should be aware that rapidly changing conditions may result in travel delays due to reduced speeds and visibility.
